Subject: Substances of Concern in Products (“SCIP”) Response Letter

Dear Valued Customer:

Arrow Electronics, Inc. and/or one of our wholly owned subsidiaries (collectively, “Arrow”, “we” or “our”) are in receipt of your recent inquiry regarding SCIP (Substances of Concern In articles as such or in complex objects (Products)) established under the European Union’s Waste Framework Directive.

Arrow is not legally required to provide information relating to SCIP to their customers for the Arrow divisions that distribute products containing articles of substance of very high concern (SVHC) outside of the EU marketplace. However, Arrow understands the importance of this issue to you and is willing to assist your organization in complying with the European Union’s SCIP obligation.

For any additional inquiries or correspondence regarding Arrow’s compliance to the SCIP, please reach out to your Arrow sales representative. It should be pointed out that product manufacturers are the only source of accurate information regarding substances and chemicals contained within a product. Because Arrow is a distributor and not the component manufacturer, we cannot certify the accuracy of any information provided by any third parties.

Again, we wish to thank you for allowing us to respond to the subject document and for your continued confidence in Arrow.

Sincerely,

Arrow Electronics, Inc.
Manager, Customer Contracts
