

# Don't Spend Valuable Time on Technical, Repetitive Tasks

**CONNECTWISE™**  
Automate

## Create Value in Your Service Delivery with ConnectWise Automate

### Decrease Costs

Proactive monitoring led to fewer systems experiencing issues or crashes, which, in turn, led to a 20% reduction in the number of tickets. \*

### More Technology Insight

Reports and metrics give you a complete view of the technology you manage, pinpointing what technology you should and shouldn't be selling to customers.

### Automate Maintenance

Organizations estimated that they were able to shorten engineer's involvement by 60%, thus cutting the cost of hardware maintenance by a potential \$1.2 million. \*

### Increase Your Value to Customers

Increased customer uptime increases customer satisfaction and brings a higher return on the services you offer. This allows you and your team to get back to focusing on value-added items like improving the customer experience.

### Take a Proactive Approach

Get Keep recurring issues from ever happening by implementing proactive monitoring and fix them faster with auto-remediation after they occur with scripting.

\*The Total Economic Impact™ of The ConnectWise Platform, a commissioned study conducted by Forrester Consulting, September 2018

*ConnectWise Automate is the most powerful tool I've ever used. And the power doesn't come from what the software does. It comes from the people who design it, and it's the tool to accomplish whatever you want.*

—Eric Hoffmaster, Director of Operations, Innovative Computing Systems
