Customers who attend a Veeam technical training course are better equipped to use key features of the software and take a proactive control of their data. Veeam **Pro**Partners that attend training are more able to position Veeam with their customers, as well as design, deploy, manage and support their customers data protection needs. These courses also help delegates to prepare for the VMCE and VMCA certifications.

We look forward to assisting you with your Veeam training needs. Please feel free to contact us for further information or find a class on our website.
